

**FOR IMMEDIATE RELEASE****LG EXTENDS WARRANTIES FOR COMMERCIAL, RESIDENTIAL,  
AND LIGHT COMMERCIAL HVAC PRODUCTS**

*10 Year Limited Liability Warranties Now Cover Compressors and Parts for  
Multi-V VRF Systems and DFS Single and Multi-zone Products*

**ALPHARETTA, Ga. April 19, 2017** – LG Electronics USA Air Conditioning Technologies announced today the extension of its limited liability warranty program to ten (10) year parts and ten (10) year compressor warranty on qualified systems, including the company’s award-winning variable refrigerant flow (VRF) systems and residential/light commercial single and multi-zone split product lines – effective this month.

“The newly expanded warranty program is part of our commitment to the marketplace in order to support our industry-leading technologies in the field,” said Tom Pivovar, director, aftermarket operations, LG Air Conditioning Technologies.

In addition to the extended limited warranty, LG Excellence Contractors will now benefit from an additional two (2) year parts and two (2) years compressor warranty for qualifying residential/light commercial systems; extending their Standard Limited Liability Warranty to 12 years for the parts and compressor. The extension of the warranty serves as another premier benefit afforded to LG Excellence Contractors in addition to access to state-of-the-art training programs, marketing support and lead referrals.

“LG truly believes in the reliability of our systems and by extending warranties, we want to pass along that confidence to our customers so they can better serve the end-users,” said Pivovar.

With the announcement of the extended warranties comes the launch of a new online product registration platform. Designed to not only streamline registration for contractors, the online interface also now enables end-users to have direct access to register their eligible systems within 60 days of startup. In creating a more efficient registration process, LG will have better insight into product installations and gain valuable data for future product development.

For the complete eligibility requirements and additional information on the new LG warranties, customers can contact their local LG Sales Representative. Complete details are also available online at [lg-vrf.com/warranty.aspx/](http://lg-vrf.com/warranty.aspx/) or [lg-dfs.com/warranty.aspx/](http://lg-dfs.com/warranty.aspx/).
